22	0001CST				0	0			Winter Weather/Mix
	2359CST								

A mixture of snow and sleet spread across North Central Texas during the early morning and daytime hours, affecting virtually all of North Central Texas. Snow and sleet accumulations ranged from a trace in the southeast up to 3 inches in Eastland and Erath counties. The biggest problem was delays in airline flights in the DFW area, and reports of over 500 traffic accidents due to ice and snow packed roads, bridges, and overpasses.
